Sir:

This is a Response to the Office Action mailed October 28, 2003. Attached are:

A new sequence listing (paper and diskette),

A Declaration relating to the sequence listing, and

Amendments to the specification, pages 8-23, in accord with the requirements under the Office Action provided as replacement pages.

The new sequence listing resulted from the discovery that a sequence which had been made by mistake, but was listed in the application, had not been added to the sequence listing. This omission has been corrected in the new listing and in the amendments to the specification.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "Glenna Hendricks", written over a horizontal line.
